STATEMENT OF THE SUBSTANCE OF THE INTERVIEW

The applicant thanks Examiner Mulpuri for the July 28, 2006, telephone interviews between Examiner Mulpuri and applicant's attorney Ido Rabinovitch. During the interview applicant's attorney and the Examiner discussed claim amendments that would put the application in condition for allowance. Applicant's attorney and the Examiner came to an agreement regarding claim amendments for independent claims 1 and 28. Subsequently, the Examiner entered the agreed-upon amendments through an Examiner's Amendments, and prepared an Interview Summary that specified the amendments entered. The Examiner has also prepared a Notice of Allowance.

Applicant notes that there are a few minor discrepancies, relating to typographical errors, between the amendments agreed-upon between the Examiner and applicant's attorney, and the amendments indicated in the Interview Summary. Specifically, the language added after the word "structure" on line 4 of claim 1 should have recited ", the multilayer structure is based on GaN" rather than "based on GaN" (similar discrepancy occurred with respect to the language added at line 3 of claim 28). In another discrepancy identified by applicant, the added language to replace the previous wording "formed therein" in line 9 of claim 1 should have been ", wherein said void is formed after forming the multilayer structure" and not ", wherein said void is formed after forming multilayer structure" (similar discrepancy occurred with respect to the language added in line 8 of claim 28).
